- Interest is calculated on a daily basis at the agreed rate and is paid into your account on the maturity date.
- Interest is paid on a tiered basis, which means you will earn one rate on your entire account balance. That rate depends on the total balance.
- If your existing Term is not shown in the table above, please refer to your agreement document for further information. If you have any queries, you can contact your relationship manager or branch.

**Can Danske Bank change the interest rate?**

- Interest rates payable on Danske Fixed Term Deposit Accounts are fixed at the date of receipt of the initial lodgement for the term. This means the interest rate won't change during the term.
