Additional information

- Interest is paid 'gross'. This means that we do not deduct tax from the interest we pay. Depending on your personal circumstances, you may have to pay tax on your interest.
- AER means 'annual equivalent rate'. It tells you how much interest you'd earn if you put money in an account and left it there for a full year. It includes how often the interest is paid and assumes any interest paid during that year is added to the balance and earns interest.
- Rate correct as at 30/03/2026.
