

# Viewing User Authorisations

This guide outlines how you can get a full overview of each User authorised on your District Agreement.

You should review your User(s) Authorisations on a regular basis to ensure they are current and up to date, if you need to amend a User Authorisation you complete this using the Administration module.

If you would like to learn more about how to use the Administration Module or any of the District functions, please use the Getting Started Guides available within Contact and Help once you have logged on to District.

If you do not have the Administration Module and would like to review your User(s) Authorisations, you can contact your Account Manager and request a copy.

### Reviewing User(s) Authorisations

You can get a list of users by logging on to District, selecting Administration from the bottom left hand menu and clicking "List of users" in the User Administration menu.
