

Residential Mortgage Standard Variable Rate

When you reach the end of a Fixed Rate period you will automatically move onto our Standard Variable Rate Mortgage. You will receive notification of this prior to the end of your Fixed Rate period. At this time you should contact us to review your mortgage needs.

- With a variable rate the interest rate can change which means your mortgage repayments can increase or decrease.
- No restrictions on making overpayments or lump sum payments and as interest is calculated daily, this means you get the benefit straight away.
- There are no early repayment charges.
